The standard style guide of the Christian publishing industry, The Christian Writer's Manual of Style, 4th Edition, compiled by veteran Zondervan editor Robert Hudson, contains clear guidance on style questions related to religious writing, including many topics not addressed in other references or online. Nearly half of this fourth revision is made up of new material, including information about turning blogs into books, the effects of digital media on writing, "adverbial doubles," "vanishing accents," word-choice strategies, endorser guidelines, and much more. It also

contains an all-new "Word List" which makes up more than a third of the book. The most needful information remains—entries on capitalization, abbreviation, citations, fictional dialogue, and more—but it has all been updated to keep pace with changes in English language usage. This fourth edition also corresponds with The Chicago Manual of Style, 16th Edition (2010), though it isn't afraid to chart new territory where that reference is unhelpful on issues of religious writing. Comprehensive yet easy-to-use, The Christian Writer's Manual of Style, 4th Edition, is a go-to resource for Christian authors, pastors, teachers, copy writers, editors, proofreaders, publishing and ministry professionals, executive assistants, and students—anyone who writes or edits as a part of their work or study—and for grammar aficionados everywhere. Since first appearing in 2002, Bryan Garner's *The Redbook: A Manual on Legal Style* has

established itself as the go-to source for all questions of legal style (apart from citation form). The book isn't just one talented man's effort: Garner has two experienced coauthors plus a hands-on team of 54 editorial advisers, most of whom have long and valuable experience teaching LRW. The book is a one-of-a-kind resource--the legal writer's equivalent of The AP Stylebook or The Chicago Manual of Style. The brand-new fourth edition has lots of new material, including an especially helpful new chapter on handling quotations. The two exhaustive indexes (word and subject), plus the detailed table of contents, make it easy to find authoritative guidance within seconds, whatever the question might be. The author, Bryan Garner, is now the most frequently cited author in opinions of the U.S. Supreme Court. It's true: last term, four of his books were cited a total of 14 times (in the somewhat fewer than 90 cases decided). This term the count is on a similar pace. In American appellate decisions generally, Garner is at the top end of sources relied on. You can rely on him, too, in the most comprehensive, nitty-gritty resource available for legal writers: The Redbook. Don't leave home without it. Followers have more power and influence than they realize. This book presents the flip side of leadership, looking up from below with a combination of personal experiences gleaned from two careers as a follower and historic examples of great "seconds" who helped make great leaders great. "Followership: the manual" expands with

every edition as readers contribute their own tenets and observations. This fourth edition is nearly double in size, adding 11 new tenets. It's a must-read companion to every leadership book on your shelf.
